**6th International
Workshop on Chemical
Bioavailability in the
Terrestrial Environment**

**4th International
Contaminated Site
Remediation Conference**

7–15 September 2011, the Hilton Adelaide hotel

Invitation

On behalf of CRC CARE and the Australian Remediation Industry Cluster (ARIC), I invite you to join us for the biennial CleanUp conference to be held at the Adelaide Hilton hotel in South Australia.

CleanUp 2011 will combine the 6th International Workshop on Chemical Bioavailability in the Terrestrial Environment (7–9 September 2011) and the

4th International Contaminated Site Remediation Conference (11–15 September 2011).

The CleanUp Conference is the premier Australian-based conference related to the contaminated site and remediation industry.

It is expected that CleanUp 2011 will have an attendance comparable to the 2009 conference, which attracted more than 500 scientists, engineers, regulators, and other environmental professionals from 25 countries. Delegates were able to promote technology transfer and exchange information, innovations and developments in fundamental and applied environmental research towards the assessment, management and remediation of environmental contamination.

The organising committee is pleased to again have secured the Hilton Adelaide hotel as the host venue for the events. This medium-sized venue enables attendees to focus on the tightly-paced program and exhibits, and to easily meet and share ideas and information.

Ample networking will be possible with a full complement of lunches, receptions, and other meals being served during the breaks in the program. After the sessions conclude each evening there will be poster sessions and networking drinks, and the conference dinners are again expected to be a highlight of the social program. At the conclusion of each day's activities, conference participants will find ample sightseeing, shopping and dining options nearby. Located on central Victoria Square, the Hilton Adelaide hotel is in the heart of Adelaide city.

Sponsorship benefits

CleanUp 2011 provides sponsoring organisations with an excellent opportunity to increase their profile, and to showcase their products and services to a wide range of key decision makers from government and industry. You will have the opportunity to meet and network with delegates from around the world, and to display your products and services in a professional learning environment whilst demonstrating your commitment to the environmental community.

CleanUp 2011 provides targeted marketing and a captive audience. As a sponsor of the conference your company will be affiliated with all aspects of the event, and receive considerable exposure and recognition.

I encourage you to take advantage of this unique opportunity to expose your organisation to a large national and international audience, and to contribute to the success of this special event.

Scientific program

The CleanUp 2011 Conference will again cover several themes relating to the assessment and remediation of contaminants, and will have a special focus on case study presentations.

The 6th International Workshop on Chemical Bioavailability in the Terrestrial Environment will include invited keynote addresses, platform and poster presentations. Listed below are the broad themes of the workshop. Themes include:

BIOAVAILABILITY ASSESSMENT	BIOAVAILABILITY REDUCTION	INCORPORATING BIOAVAILABILITY INTO RISK MANAGEMENT
<ul style="list-style-type: none"> ■ Speciation and bioavailability ■ Bioavailability, bioaccessibility and mobility of environmental contaminants ■ Standard operating procedures for organic and inorganic contaminant bioavailability ■ Climate change effects on bioavailability and contaminant biogeochemical cycles ■ Engineered nanoparticles as contaminant carriers – implications for bioavailability, toxicity and bioaccumulation 	<ul style="list-style-type: none"> ■ Establishing the foundation of reduced bioavailability – basis for risk-based clean up ■ Remediation techniques to reduce bioavailability ■ Case studies 	<ul style="list-style-type: none"> ■ Role of bioavailability in in-situ management of wastes and contaminated material ■ Application of bioavailability data to derive clean-up levels for site management ■ Bioavailability – the underlying basis for sustainable remediation ■ Case studies

The 4th International Contaminated Site Remediation Conference will build on the highly successful Contamination CleanUp 07 and 09 conferences. The 2011 four day conference will again cover several themes relating to the assessment, management and remediation of environmental contaminants. There will be a particular emphasis on current and emerging environmental issues facing the Asia-Pacific region. The diverse and inspiring program will feature 200 speakers and 50 poster presentations, an industry summit, trade exhibition, poster session and field tours. Major conference themes and sub-themes include:

CLEANING UP – MAKING REMEDIATION EFFECTIVE	MINIMISING UNCERTAINTY IN RISK ASSESSMENT
<ul style="list-style-type: none"> ■ In-situ remediation ■ Bioremediation of hydrocarbons including chlorinated hydrocarbons ■ Managing contaminants involving fractured rock ■ Mixed contaminants assessment and remediation ■ Green remediation ■ Sediment assessment and remediation ■ Capping – ancient or modern approach to managing contaminants ■ Monitored natural recovery (MNR) and enhanced MNR ■ Beneficial use of contaminated soils ■ Groundwater remediation ■ Vapour modelling and remediation 	<ul style="list-style-type: none"> ■ Sources of uncertainty in measurement and risk assessment ■ Modelling for site characterisation and assessment ■ Peer reviews and validation in model development ■ Bioavailability of contaminants ■ Contaminant fate and transport ■ Groundwater/porewater/surfacewater interactions ■ Contaminant flux in soil and groundwater
	INNOVATIVE SITE CHARACTERISATION, ASSESSMENT AND MONITORING
	<ul style="list-style-type: none"> ■ Innovative characterisation and assessment ■ Improved rapid field technologies ■ Field sampling and in-situ measurements techniques ■ Advances in ecological and human health risk assessment ■ Monitoring biological indicators and recovery ■ Emerging contaminants assessment and impacts ■ Chemical/toxicological/biological measurements and characterisation ■ Toxicity of mixtures ■ Ecosystem – and watershed-based assessment
BEST PRACTICE POLICY – PUTTING GUIDANCE IN PLACE	WASTE MANAGEMENT – ADDING VALUE TO WASTE OR VALUE OUT OF WASTE
<ul style="list-style-type: none"> ■ Effective risk communication to stakeholders ■ In-situ management of contaminated sites and wastes ■ Risk-based management and clean-up decisions ■ Landfills – risks, or effective and safe management of contaminants? 	<ul style="list-style-type: none"> ■ Waste characterisation for beneficial use ■ Wastes as soil amendments ■ Biochar from wastes for carbon sequestration ■ Landfills – wasting waste or effective and safe management

Delegate profile

These two events, which combine to make up CleanUp 2011, provide direct access to leading international decision makers in the areas of government, industry and academia such as (but not limited to);

- Academics
- Consultants
- Government agencies
- Scientists
- Policy and regulatory advisors

Delegates attending the conference will include visitors from more than 25 countries, including (but not limited to):

- Asia Pacific, including Australia and New Zealand
- China
- India
- the United States
- Canada
- the United Kingdom
- western Europe

Why align your organisation with the conference?

The CleanUp 2011 conference will provide a unique opportunity to interact with key players in the industry, while offering opportunities to:

- Market your product or service at a major international environmental conference that is held every two years
- Reach an expected target audience of more than 500 delegates, including leading researchers, regulators, environmental managers and decision makers from private industry, government and environmental consultants
- Attend a conference which is known for its focus on bringing together industry, government and academia to ensure practical solutions to environmental issues

- Participate in a conference featuring first class plenary speakers with a focus on ensuring the scientific program includes world leaders in current and emerging areas of environmental remediation. As an international conference, there will be a special focus on topics of global interest
- Expose Australian businesses to international users and decision makers
- Demonstrate your commitment to the environment and remediation.

Trade exhibition

The CleanUp 2011 conference trade exhibition will provide an exceptional opportunity to promote your products and services in a face-to-face environment, thereby furthering your sales and marketing objectives. There's no better way than a trade exhibition to:

- demonstrate and test new products and services
- gain instant market feedback
- develop personal and direct relationship with potential and existing clients and industry peers
- raise your organisation's profile and position your organisation as a leader in the area

- showcase your products and services to hundreds of delegates in your target audience
- gain a high level of visibility through the official website, marketing materials and many opportunities for further promotions.

A number of strategies have been devised to maximise 'booth traffic' and enhance networking opportunities, including exhibit hours structured around the conference program, morning and afternoon tea breaks, and the welcome reception occurring in the exhibition area.

- Listed as an exhibitor with a link on the conference website
- 25 word organisation profile in the handbook
- One complimentary delegate registration inclusive of all social functions and catering
- Company name included on signage at the entrance to the exhibition

If you would like assistance designing a custom stand the conference managers are able to provide stand upgrade suggestions and design ideas.

Companies may choose the amount of space that suits their requirements. Please refer to the floor plan for some suggested locations for larger stands.

GENERAL INFORMATION

The exhibition package includes a conference satchel, morning and afternoon tea and lunch 12–15 September, attendance at the welcome reception on Sunday 11 September and the conference dinner for one staff member. Additional booth personnel must purchase a daily exhibitor staff pass. The exhibitor staff pass includes the conference satchel, morning and afternoon tea and lunch and is AUD\$150 per person per day. Exhibition staff wishing to attend sessions must register as a conference delegate and pay the appropriate registration fee.

PUBLIC AND PRODUCT LIABILITY INSURANCE

Australian regulations require all exhibitors to have adequate public and product liability insurance cover based on a limit of indemnity to the value of AUD\$10,000,000 or above. This refers to damage or injury caused to third parties/visitors on or in the vicinity of an exhibition stand.

Exhibitors are required to submit their public liability insurance certificate along with their booking form. Most companies already have adequate cover, and certificates – also referred to as 'Broadform' – within organisations can often be found with the accounts/finance departments.
